

Fusion Health Launches Weight Burn Product to Promote Fat Burning and Weight Loss

BYRON BAY, NSW, AUSTRALIA, April 5, 2014 /EINPresswire.com/ -- Fusion Health has launched their latest product [Weight Burn](#), a high potency standardised green coffee and green tea extract, to assist fat burning and [weight loss](#)* in Australia.

Fusion Health Technical Director Paul Keogh explains how high potency, standardised Green Coffee together with Green Tea extracts are scientifically researched to reduce body weight."

Fusion Health

This month Fusion Health launched their new Weight Burn with Thermolean™ an exclusive high strength, decaffeinated Green Coffee extract standardised to provide 47.5% chlorogenic acids.

In announcing the new Weight Burn product, Fusion Health Technical Director Paul Keogh explains how high potency, standardised Green Coffee together with Green Tea extracts are scientifically researched to reduce body weight; they promote the burning of stored fat for energy, regulate fat and glucose absorption from food and help maintain healthy fat and sugar metabolism†.

Green Coffee and Green Tea have been shown to activate adipose tissue to burn fat for energy as well as support normal blood sugar levels†, important for healthy weight loss*.

Mr Keogh highlights the benefit of combining Green Coffee chlorogenic acids from Thermolean™ with catechins from Green Tea, as both have been independently clinically tested and found to significantly reduction in body weight, BMI and body fat percentage. New Weight Burn harnesses the power of Green Coffee together with Green Tea, and is set to deliver natural assistance for people wanting to lose weight.

As a guide to retail partners, Fusion Health recommends that Weight Burn combines well with other successful formulas in the range like Weight Loss for added benefit. Weight Loss should be taken before meals and Weight Burn after meals.

Fusion Health Weight Burn tablets are now available in health food stores throughout Australia.
