Five years ago Manny Pacquiao was at the top of the list when it came to the pound for pound rankings and compared to all time greats such as Roberto Duran and Sugar Ray Leonard. 5 years later and Pacquiao has a devastating knockout loss to Juan Manuel Marquez on his resume, as well as a controversial loss to Bradley two years ago.

Pacquiao, did manage to bounce back and prove he was still among the elite fighters in the welterweight division when he took on Brandon Ross. The 27 year old Ross was considered one of the most entertaining boxers at 147, and more than capable of pulling out a win over the Pac Man, but Pacquiao was able to silence the critics with a convincing victory.

Bradley, comes in as the WBO welterweight champion and looking to prove that his win over Manny Pacquiao two years ago was no fluke. Despite the controversial win over Pacquiao in 2012, the 30 year old Bradley put together his most successful year as a professional with wins over Marquez and Ruslan Provodnikov.

Keys to the fight: Does Bradley have the necessary speed and timing to take advantage of Pacquiao's mistakes, and will the knockout loss to Marquez make the pac man hesitant to pull

the trigger? Pacquiao, at times is vulnerable to the big counterpunch because of his aggressiveness, as proven in his knockout loss to Marquez.
