### About the Program:

This incredibly comprehensive 2-Day General Session and Vendor Exhibition will assemble over 20 Key Organizations and Senior Leading Experts that are executing current ISR requirements and who are shaping the direction of future ISR capabilities for the services and public service sectors. The Services' ever increasing roles for Next Generation ISR assets are permeating across a very broad range of critical missions, including but not limited to: Persistent Global Strike, Counter-intelligence & Counter-terrorism, Maritime Domain Awareness, Space Defense, Anti-Access and contested Global Commons. From Iraq and Afghanistan to the ever increasingly tumultuous Asia-Pacific region, and at home to CONUS, the need for diverse and evolving leap-ahead Next Generation ISR technology is paramount.
