

Doug Hammack Publishes Book 'Rethinking Our Story: Can We Still Be Christian in the Quantum Era?'

RALEIGH, NC, USA, April 29, 2014 /EINPresswire.com/ -- Author and minister, Doug Hammack, asks whether or not we can still be Christian in the quantum era in his new book, *Rethinking Our Story*, which is now available for sale on Amazon.com.

Since he relocated to Raleigh in the mid 1990s, author and minister, Doug Hammack, has been asking hard questions related to Christianity and the struggles that the Christian church has been facing.

Hammack's book, *Rethinking Our Story*, explores deep issues surrounding Christianity, the church and views on how Christians can help make the church a powerfully transformative presence in society once again. As Hammack states,

"*Rethinking Our Story* explores the fundamental question: "Can we still be Christian in the quantum era?" Yes, we can, the book concludes, but we have to be "quantum" Christians. We have to retell our story in terms that work in the world that is emerging around us.

In the last 100 years, quantum physics has disrupted the Reality we used to live in. It has changed our basic orientation to truth and existence. Most of us don't understand quantum physics, we just know that the world we live in has become relative, uncertain, and illusory. The Christian story we tell, however, remains absolute, certain, and fixed. If we're honest, telling the story the way we have isn't even working for us as Christians."
