

Experience Versatility With The New D-MAX And Isuzu MU-X SUV In Brisbane At Northstar Isuzu UTE

Northstar Isuzu UTE (Redcliffe) is now stocking the MU-X SUV Range and D-MAX Range of vehicles for test drives and delivery now.

REDCLIFFE, QLD, AUSTRALIA, May 1, 2014 /EINPresswire.com/ -- Looking for comfort and convenience in a vehicle that is sleek and luxurious on the outside, but has rugged performance capabilities under the hood? Drivers will find all that and more with the D-MAX Range and MU-X SUV Range by Isuzu in Brisbane at their local Northstar Isuzu UTE dealership (Redcliffe.) Isuzu has been making dependable commercial vehicles for over 60 years, and their passenger vehicles incorporate all of that practicality in an aesthetic Australians are proving to love.

The D-MAX Range is Isuzu's versatile line of [passenger pickup trucks](#), with eight 4x4 models and four 4x2 models. The D-MAX is easily traced back to the 1963 Isuzu WASP, which was the brand's first attempt at creating a vehicle that looked like a passenger vehicle but worked like a truck. Over time, the body style and features of the D-MAX Range have led to a dedicated following, all of whom depend on their Isuzu for its reliability, strength, and good value. Sleek, aerodynamic styling on the outside, fully equipped interior features for convenience, and a fuel-saving diesel engine for cost savings, the Isuzu D-MAX Range quips, 'What more could you want?'

"The D-MAX Range is a great addition to our lot, because it really provides all the features people look for when buying a pickup truck. Today's Australians don't just want a truck that performs – they want a truck they're proud to show off. The D-MAX certainly fits that bill," said Bob Aldons of Northstar Isuzu UTE in Redcliffe (<http://www.northstarisuzuute.com.au/iua/>).

The MU-X SUV Range of vehicles offers Australians an SUV that can take the kids to school or help you explore the off-road outback. Customers can choose from [five model variations](#) with three different spec levels, which allow the driver to customise their MU-X to their liking. Experience the power under the hood while enjoying the benefits of having a highly efficient [turbo diesel engine](#).

The D-MAX Range is a great addition to our lot, because it really provides all the features people look for when buying a pickup truck."

Bob Aldons

"The MU-X draws people in with its appearance, but it really wows them once they realise the long list of benefits the SUV offers. Our representatives love talking about the MU-X because it truly fits so many scenarios with ease. Come take one for a test drive - we know you won't be disappointed!" Aldons said.

Customers can easily book a test drive of the D-MAX Range or MU-X SUV models of Isuzu in Brisbane by calling 07 3480 8600, visiting the dealership at 739 Deception Bay

Road, Rothwell, Brisbane, QLD, 4022, or by visiting the dealership's web site.
