

GenEon Launches Mist Fogger/Blower A 2 in 1 Sustainable Cleaning Device

SAN ANTONIO, TX, USA, May 2, 2014 /EINPresswire.com/ -- [GenEon](#) Technologies announces the latest in their line of Innovative, Cost-Eff-ective, Sustainable Cleaning Systems. The [Mist Fogger/Blower](#) allows for cleaning, sanitizing and disinfecting large open areas without the need for direct surface contact or harmful chemicals.

GenEon Technologies announces the latest in their line of Innovative, Cost-Eff-ective, Sustainable Cleaning Systems. The Mist Fogger/Blower allows for cleaning, sanitizing and disinfecting large open areas without the need for direct surface contact or harmful chemicals thus providing an attainable solution for any organization where public safety from germs and bacteria is a concern.

The GenEon Mist represents a significant shift in large area cleaning enhanced with a dramatic reduction in labor costs and elimination of traditional cleaning agents. The Mist is ideal for [cleaning and sanitizing](#) large open areas, such as classrooms, restrooms, walk-in freezers, hotel rooms, medical facilities restaurants and grocery stores without making direct contact with all surfaces.

Of GenEon's latest product launch, Co-Founder & VP of Client Services and Sales Operation, Syd Williams said, "We are proud to offer a cleaning solution for large areas that will provide an attainable method to ensure that our children are safer from infection in their classrooms and people will no longer need to be as concerned with the cleanliness of public areas such as restaurants and restrooms. This product is well within the reach of every organization that wants to provide a sanitary environment. With the availability of our Mist, there are no longer any excuses for a less than GenEon clean environment".

GenEon's Co-founder and VP of Sales & Marketing added, "The Mist is perfect for sanitizing even hard to reach places and is also effective for elimination of odor, mold and mildew WITHOUT the need for toxic, costly chemicals...why wouldn't the option to provide a safe clean environment be taken if it also saves time, money and resources? It's the obvious choice for companies who care."

About GenEon Technologies Inc.

Geneon is a visionary company that believes engineered water technologies provide a broad range of uses which improve the health, safety and productivity of our customers.

Our mission is to redefine the meaning of safer cleaning, degreasing and sanitizing to include sustainable, renewable and chemical-free options that are proven to be as effective as leading "green" and traditional chemical cleaners; and at the same time improve the health, safety and productivity of those who use or are exposed to those products where they live, work and play. Our vision is to develop products, services and solutions that help our customers and business partners transition to a world where sustainable and chemical-free cleaning and sanitizing is the new norm for safe, superior and cost-effective results.
