

# Electrical Counter Introduce New Click Scolmore Definity Screwless Flat Plate Range

*Based in Ashford, Kent, The Electrical Counter has become one of the UK's number one online websites for switches and sockets.*

ASHFORD, KENT, UK, May 9, 2014 /EINPresswire.com/ -- Based in Ashford, Kent, The Electrical Counter has become one of the UK's number one online websites for [switches and sockets](#). The electrical wholesale website can now introduce the Click Scolmore Definity Screwless Flat Range to their popular switches and sockets section online. The Definity range from Clicks screwless flat range comes evolved from the manufacturer's best selling Define range of screwed flat plate switches and sockets.

In introducing this range, Electrical Counter have chosen the Scolmore Definity range which shares the same attributes as the Define range, but they do not simply have visible fixing screws. Click Scolmore provides their Definity Flat plate covers and inserts separately. This will in turn allow customers many custom combinations with less required stock and enable an easy 3 stage installation process. The process will involve customers choosing an insert, choosing the decoration cover plate and finishing by simply clipping the cover plate onto the insert.

Electrical Counter maintains that the Scolmore wiring accessories will allow excellent quality production for contemporary styled property and competitive wholesale price. The Electrical Counter allow four finishes available online which include brushed steel, stainless steel, polished chrome and red. The Definity inserts are available with brushed steel, polished chrome, stainless steel and black rockers. Specification is also available to customers online. The Electrical Counter will provide 1 Gang, 2 Gang, 3 Gang, 4 Gang or 6 Gang light switches, 45 Amp double poles switched cooker control units, fused spur connection units with neon and fan isolator switches.

The electrical wholesalers from Kent also introduced the new Ovia 6.5w GU 10 lamp by Scolmore. This lamp replaces the old 5141.0665.11 and 5141.0655.11 which increases customers lumen output and the overall wattage.

The Electrical Counter is constantly looking to add new, innovate and affordable products to their website. Currently, the wholesalers sell thousands of products which include switches and

sockets, heating, ventilation, heating, hand dryers, solar, security systems and much more.

Electrical Counter are an online electrical wholesaler. Products including switches & sockets, heating, solar and much more are available online today.
