

# Paradiso Solutions Introduces Totara Multi Tenancy for the Enterprise

---

SAN FRANCISCO, CA, USA, May 9, 2014 /EINPresswire.com/ -- The leading provider of eLearning technologies, Paradiso Solutions, is happy to announce the release of its new product to the market, [Totara Multi Tenancy](#), specially developed for the corporate sector. The ambitious project started a few months ago when our clients expressed the need of unifying a wide array of organizations into a single Totara instance.

[With this cost effective eLearning](#) solution, Paradiso aims to provide a robust LMS where companies can have multiple clients, vendors, or partners within their eLearning platform. Allowing for separation of users, themes, administration roles, workflow and learning plans while saving money and time.

“Just as all our solutions, Totara Multi-Tenant is fully customizable. We wanted to take the existing Totara features such as hierarchies, programs and user frameworks to the next level and pleased our clients’ need of having specific settings for each tenant” states David Quinn, Senior Project Manager and person in charge of the project.

[Some of Totara](#) Multi Tenancy features are: Single Sign On (SSO), admin roles, permissions, themes, and reports. Also, people are empowered to choose whether to use Totara Multi Tenancy feature or to keep one Totara instance with its default features.

## About Paradiso Solutions

Paradiso Solutions (<http://www.ParadisoSolutions.com>) is an e-Learning consulting and development firm delivering solutions since 2007 to various clients - from Fortune 500 companies to small business and offers LMS implementation, consulting, support, hosting, training and course creation. Paradiso Solutions has integrated various open source systems such as Moodle and Totara with Salesforce, SugarCRM, Adobe Connect and various other applications. They have worked with schools, higher education, corporations and government organizations and have clients in the USA, Canada, Colombia, Brazil, India and various parts of Europe. Their team recognizes the value of virtual learning and delivers a high level of service so that their clients get most out of their LMS investment.
