

Service One AC Designated As 'Trane Comfort Specialist'

Service One AC of Longwood is committed to being the best in installation, service, customer satisfaction and employee training.

LONGWOOD, FL, USA, May 13, 2014 /EINPresswire.com/ -- [Service One AC of Longwood](#) is proud to announce that they have been designated as a "[Trane Comfort Specialist](#)." As an independent Trane dealer, Service One is committed to being the best in installation, service, customer satisfaction and employee training.

"This is an important distinction for us as not every dealer qualifies as a Trane Comfort Specialist," said Service One founder and president, Bill Gouty. "Only those dealers that meet Trane's stringent standards and who demonstrate a commitment to customer satisfaction, continuing education and commitment to training with Trane's latest technology, are considered Comfort Specialists."

When it comes to air conditioning, there are few companies in Central Florida that can match the service and reputation of Service One AC. When looking for heating or air conditioning service, Service One books customer appointments on the spot and will arrive for service within 24 hours. "Plus if it's an emergency," said Gouty, "we'll come immediately to help you resolve your issue." In addition, Service One AC offers flat-rate pricing, certification by NATE and the EPA, comprehensive background checks on all employees and detailed customer satisfaction surveys.

Founded in 2003, Service One is a locally owned and operated air conditioning, heating, and plumbing company that repairs, [services and maintains](#) all makes and models of air conditioning, heating, and plumbing equipment and fixtures. The company's team of experts can also upgrade, replace, or install new air conditioning and heating equipment.

"Service One is proud to represent Trane, a company known for systems that are designed to achieve maximum efficiency, reliability and comfort, as well as delivers the efficiency its ratings promise and that our customers expect," said Gouty.

Service One AC proudly showcases the 20i Hyperion, which is one of Trane's top end models. The XL20i comes with a multi-stage fan that allows the fan to slow down during mild weather conditions – a slower fan means less energy consumed. The 20i Hyperion is designed for

durability and weather resistance. Trane utilizes a trademarked technology known as ChargeAssist which allows the Trane heat pump to maintain the exact amount of refrigerant that is required for good performance. A final advantage of the 20i is the compressor warranty. Most of Trane's competitors come with a 10-year warranty on the compressor, however Trane stands behind a 12-year warranty.

"Trane's willingness to extend their compressor warranty to 12 years is quite a statement to their durability," concludes Gouty.

ABOUT SERVICE ONE: Founded in 2003 in Longwood, Florida, Service One is a locally owned and operated air conditioning, heating, and plumbing company.
