

New Generation Homes Guarantees 22 Week Build Time Of Large Family Homes

The FastTrack Guarantee by New Generation Homes promises a move-in date just 22 weeks after signing a construction contract.

PERTH, WEST AUSTRALIA, AUSTRALIA, May 16, 2014 /EINPresswire.com/ -- [New Generation Homes](#) is so certain of their 22-week build time [FastTrack Guarantee](#) that the builder is offering to pay buyers whose home construction project goes past 22 weeks. Under the FastTrack Guarantee, buyers are guaranteed a new home in just 22 weeks, or the builder will pay them \$400 per week until they can move in to their new home.

The builder handles all aspects of home buying from site selection and home design to finding a home loan in Perth.

New Generation Homes' FastTrack Guarantee should prove attractive to buyers who may be wary of new construction due to uncertain start dates. New Generation Homes does not have that same uncertainty thanks to long-standing relationships with developers throughout the Perth area.

“

There's no risk with the FastTrack Guarantee. If we don't meet the 22 week build time, we will pay the buyer \$400 every week until they can move in to the home.”

Sandra Muller

"In many cases with other builders, the contracts will be signed but construction won't begin for several months because they're working out the details with the developer. That's very frustrating for the home buyer who is excited and ready to move forward. Not only do they have to wait on construction to begin, they have to figure out other living arrangements in the meantime, without knowing how much time they have until move-in. The FastTrack

Guarantee removes that uncertainty by guaranteeing the 22-week build time so buyers can plan their move accordingly," explained [Sandra Muller](#) of New Generation Homes (www.newgenerationhomes.com.au).

New Generation Homes specialises in large family homes that are stacked with features and inclusions, providing great home value to the buyer. Currently 30 home designs are available for the FastTrack offer with prices starting at \$167,000. The builder provides a one-stop-shop service for buyers since they are able to source the land, provide home designs, actually construct the homes, and can even help a buyer obtain a home loan in Perth. The builder works closely with Westgate Financial Services to help buyers explore home financing options and choose the best loan for their needs. Having all of these services under one-roof makes the construction process move much more smoothly than if the buyer had to coordinate communications between all of the different parties.

"There's no risk with the FastTrack Guarantee. If we don't meet the 22 week build time, we will pay the buyer \$400 every week until they can move in to the home. This gives buyers peace of mind knowing how dedicated we are to getting their home built and move-in ready," explained Muller.
