

# Europ Assistance - GCS Inaugurates its 2nd Medical Center in Chad

*To best satisfy its enrolled patients, the Europ Assistance Medical Center in N'Djamena has opened a medical annex in the city center*

PARIS, FRANCE, May 19, 2014 /EINPresswire.com/ -- PARIS, FRANCE - On Saturday May 10th 2014, Europ Assistance - [Global Corporate Solutions \(GCS\)](#) hosted an event in N'Djamena, Chad, to inaugurate its second [Europ Assistance Medical Center](#) located in the Klémat neighborhood of the city center.

The event allowed GCS' clients and partners to visit the new medical establishment, created to provide easier access to international standards medical care to enrolled patients located in the N'Djamena city center.

With 2 consultation rooms, an emergency and hospitalization room, as well as a laboratory and dressing room, the new Europ Assistance Medical Center serves as a medical annex and complements the main Europ Assistance Medical Center located in the Farcha neighborhood of N'Djamena.

At the event, Emmanuel Légeron, CEO of Europ Assistance - Global Corporate Solutions, said: "With the opening of this new medical structure our aim is to bring international standards medical care closer to our clients' locations and accommodate the increasing number of enrolled patients."

GCS started its operations in Africa in 2006 by providing a variety of medical services to corporate clients in Chad, such as remote medical services in isolated locations, the set-up and management of a Europ Assistance Medical Center in N'Djamena, and medical transport services for both expatriates and foreign visitors (medical evacuation and repatriation services) and for local employees (travel for treatment program).

Today, GCS provides international standards medical care to more than 5,000 members in Chad, both in N'Djamena and on clients' operations sites in remote locations.
