

Nano Magnetism Sponsors Canada-wide "Let's Talk Science" STEM Competition

TORONTO, ONTARIO, CANADA, May 23, 2014 /EINPresswire.com/ -- Nano Magnetism is proud to be a National Supporting Sponsor of "Let's Talk Science Challenge," a cross-Canada program dedicated to science, technology, engineering and math (STEM) enrichment.

Let's Talk Science Challenges are being hosted across 23 Canadian universities throughout Spring 2014. The challenges offer a competitive and fun event for Grades 6-8 students to improve literacy and involvement in STEM, build their team skills, interact with relevant role models and test their abilities against peers.

The founder of Nano Magnetism, Tim Szeto, will be an honorary judge at the York University event on May 23, 2014. Spirit Award winners across Canada will receive a set of [Nanodots GYRO duos](#).

"This Let's Talk Science initiative is a great opportunity. It encourages hands-on creativity and team building for science, technology, engineering and math challenges. The future leaders of tomorrow need more than a basic understanding of STEM studies, they need to love it and live it intuitively as well," said Tim Szeto, founder, Nano Magnetism.

Latest Let's Talk Science Announcements:

- The Honorable Ed Holder, Minister of State (Science and Technology), visits the Let's Talk Science Event at Carleton University
- Astronaut Chris Hadfield Talks Radiation with Let's Talk Science Students from Airdrie Alberta
