

Free webinar demonstrates how PCI DSS implementation can be made easier with the right tools

IT Governance has announced a new webinar called 'Implementing PCI DSS best practice – versions 2.0 & 3.0' on 19 June 2014 at 15:00 BST.

ELY, CAMBRIDGESHIRE, UK, June 11, 2014 /EINPresswire.com/ -- IT Governance, a PCI QSA company and member of CREST, has announced a new webinar called 'Implementing PCI DSS best practice – versions 2.0 & 3.0' on 19 June 2014 at 15:00 BST.

Led by QSA Geraint Williams, the webinar aims to help delegates gain an understanding of how the [PCI DSS Documentation Toolkit](#) can help them implement the Payment Card Industry Data Security Standard (PCI DSS) into their organisation.

The webinar will cover the PCI DSS documentation requirements and the benefits of using a professional toolkit to accelerate compliance with the Standard. It will also include a case study and a Q&A session.

With increased pressure on organisations that store, transmit or process cardholder data to implement tighter cyber security controls, it is more important than ever that they can demonstrate compliance with the PCI DSS.

The webinar 'Implementing PCI DSS best practice – versions 2.0 & 3.0' will run on 19 June at 15:00 BST. Registrations are open here: www.itgovernance.co.uk/webinars.aspx#pci.
