/EINPresswire.com/ -- The scope and reach of the US-facing online gambling industry continues to expand with the recent development and launch of online casino guide, [CasinoOnline.US](http://CasinoOnline.US).

Aimed at giving bettors an accurate and timely assessment of internet casinos permitting US residents to open accounts, including accounts that allow real money casino games, CasinoOnlineUS will be initially focusing on three markets that currently offer legal online gambling.

[Nevada](#) was the first state to launch live online gambling, with the exception that gaming would be limited to online poker. An interstate agreement with Delaware is likely to expand wagering to include online casino games. Current operators are Caesar's Interactive (WSOP), Ultimate Gaming and Real Gaming.

[New Jersey](#) was the first state to go live with both poker and casino games online. Five Atlantic City casino operators - Caesar's, Borgata, Tropicana, Trump and Golden Nugget - currently operate over 15 sites accepting real money wagers from online bettors physically located in NJ.

Delaware was the first state to officially pass online gambling regulatory legislation into law, but has been slow to develop and launch casinos online. There are currently three racino operators - Dover Downs, Delaware Park and Harrington - with live casinos online.

To make matters even easier for players, CasinoOnlineUS was launched to be mobile and tablet friendly. Structured off of the popular WordPress platform, the new website offers a clean, simple design and user interface, and provides visitors with easy navigation and heightened engagement. Feedback and comments will not only be encouraged on the CasinoOnlineUS news blog, but also on the homepage and elsewhere throughout the site.
