NEW YORK, NY, USA, June 23, 2014 /EINPresswire.com/ -- Google is in the business of supporting a positive user experience, and protecting consumers from websites and/or products that are below standard. When you look for BeauteDeParis through the google search-bar you will find a 4.6 star rating (out of 5) for its [beauty products](#).

How Ratings are Earned:

One of the ways Google can convey a quality seller or product is through is through their "advertiser star system"; anything [over 4 is outstanding](#). A company that has a star system shows that they care enough to work hard at pleasing its customers. In this regard, the star rating is based on an independent watchdog that evaluates a product and /or service. These watchdog companies will poll buyers about a particular site or product after the customer makes a purchase to ascertain that the site and the product are of high quality. Other questions asked may include: how long have you used the product, and would you come back and purchase the product again.

BeauteDeParis.com offers a selection of high [quality skin care](#) products to address the most popular beauty concerns of its customers for:

Wrinkle Redeaux - anti-wrinkle,
Lash Relonge - lash enhancer
Brow Relonge - eyebrow enhancer

Company spokesperson, Rich Fuchs, says he's "proud that BeauteDeParis.com has been chosen to be showcased with the distinction of a 4.6 rating." He adds, "This puts us in the same class as a company like Amazon (with a 4.5 rating). I'm happy, that we've earned it. BeauteDeParis puts out a first class product so a 4.6 rating is something that naturally comes with this." This puts BeauteDeParis high up on the ranking of other quality companies.

As a frame of reference while Saks Fifth Avenue also has a 4.6 star rating, Apple product stores only 4.4 rating. This should tell you how respected a brand and retailer BeatedeParis is.
