

IBITGQ Launches Accredited Training Organisation Programme

The International Board for IT Governance Qualifications (IBITGQ) has announced the launch of its global Accredited Training Organisation Programme.

BAMBERG, GERMANY, June 24, 2014 /EINPresswire.com/ -- The International Board for IT Governance Qualifications (IBITGQ) has announced the launch of its global Accredited Training Organisation Programme. The IBITGQ ATO (Accredited Training Organisation) Programme has been designed to provide suitable training companies with the approval and resources required to deliver IBITGQ training courses and exams in their respective sales regions.

IBITGQ is particularly looking to develop commercial relationships with experienced companies that already deliver training services related to the multi-disciplinary field of IT governance. This includes information security management, PCI DSS, IT risk and compliance, business continuity management and service management. This ATO Programme is currently only available to companies who operate outside of the United Kingdom.

The benefits of becoming an IBITGQ Accredited Training Organisation include:

- Good profit opportunities with the sale of high value courses and exams.
- Significant enhancement of brand and reputation in respective markets.
- Strong competitive position in growth market of information security management.
- Complementary to the development of a consultancy business service.
- Courses are regularly updated and part of an expanding and current portfolio.

IBITGQ offers [qualification programmes](#) with structured learning paths from Foundation to Advanced levels in the key topics associated with international standards, including ISO27001, PCI DSS and ISO22301. Training courses are designed to build the skills required to enable delegates to deliver best practice in their organisation, and to obtain industry-recognised qualifications to enhance their career opportunities in the future.

Nora Clifford, Chair of the IBITGQ Examination Panel, confirmed, "IBITGQ has developed an unrivalled portfolio of IT governance training courses and exams. In particular, our ISO27001 Certified ISMS Lead Implementer (CIS LI) course is acknowledged by our peers as the most comprehensive on the market and the CIS LI certificate is increasingly recognised by employers worldwide.

"We have successfully completed a pilot phase of an ATO Development Plan which has resulted in the creation of partnerships with IT Governance Ltd in the UK and 3SC Technologies in the Middle East and North Africa (MENA) region. We are now seeking new partners in all regions (except the UK) who can meet our high standards in the delivery of our courses and exams. In return, we can offer them a unique commercial advantage, particularly in the growing markets of cyber security and business continuity management."

For companies that would like to become an IBITGQ Accredited Training Organisation (ATO), please download, complete and return the following IBITGQ ATO Enquiry form.
