

Prizes and New Updates Are Coming From Haypi

Haypi Co Ltd lives up to its reputation of an extremely productive mobile games developer. Haypi keeps adding new content to the games and organizing activities

SHANGHAI, SHANGHAI, CHINA, June 27, 2014 /EINPresswire.com/ -- Haypi Co., Ltd successfully lives up to its reputation of an extremely productive mobile games developer. Haypi has kept busy releasing new updates and games. The developer of MMOs, war strategy games, MMORPGs, EDU games and so on, still keeps adding new content to the games and organizing exciting activities with awesome prizes.

The winners from Haypi's [World Cup Frenzy activity](#) will become known any minute, because the activity is coming to an end today, at 7:00 AM GMT.! Players recall that together with the start of the World Cup, Haypi announced an activity which allows players to earn prizes up to a hundred dollars' worth! The download link and password to the "Haypi's Lucky Moments" file will be disclosed when the activity ends (7:00 AM GMT June 27th, 2014). The activity had simple rules -

players just had to post an entry below the special activity threads on Haypi Forums. If the reply happened to be the first posted right at or after the Haypi's Lucky Moments (pre-set timeline for this activity), then that player could win a prize accordingly.

Same as before, Haypi continues to offer new updates and features to their fans. [Haypi Pirates](#), Haypi's successful MMO and strategy game, will soon see another update come to life. A new update of the game, version 1.6, has been submitted to Apple for review. Not only Haypi Pirates, but Haypi Monster: The Lost Tower also got an update - version 1.5.1. This update to Haypi's popular EDU game continues to be absolutely well-received. In addition, Haypi's team is now working on something new, and the players should soon be happily surprised.

There is another important piece of news concerning the developer's newest game: [Haypi Adventure](#):

Haypi Adventure: Kingdom of Glory

Kingdom of Glory. Haypi has announced the release of another update of the game - Version 1.0.1. In the new update, the improvements are in two major directions – increasing the value of in-app purchases through special treats, and optimizing the game with some changes based on the players' feedback.

Now the in-game purchases give a great value to the players, and allow them to enjoy the game even more! Players can get lots of bonuses, which would make them able to advance in the game faster. A whole new feature called "Alliance Gift" has been introduced in the latest update.

Haypi Monster: The Lost Tower

The Alliance Gift is an extra bonus that is received whenever anyone in the alliance buys a certain type of gold package. The Gift may include silver, wood, iron, or even gold. In the new version 1.0.1, there is a choice of One-Time-Only treats. Players can get more gold through these newly-introduced Gift Packs. Apart from that, an option for a Special pack of gold has also become available in the new update. With the Special Pack, a player can get 30 in-game gold coins immediately, and then enjoy an extra daily reward for the following 30 days after buying the special pack. The extra reward collects up to 300 gold.

The new update also features some useful improvements that make the gameplay much smoother. Except for fixing minor errors, the developer also made some changes base on the players' feedback. In the game, when an attack against another player has been initiated, the attacker can get a nice amount of the bonus resources from the system. Now, reports about the combats that are initiated by a certain player separately display the plundered resources and the bonus resources (obtained from the system). In this way, players' confusion over the real amount of resources lost after being attacked has been reduced. Some additional optimizations of Haypi Adventure have been made to improve the fairness of the gameplay. For example, Silver Protection technology can protect more silver than before. There other improvements, too - general optimizations have been made to UI display. Lag and force close issues have been corrected on viewing Combat Replay Videos. So now Haypi Adventure runs smoother and Is much more exciting than ever.

Haypi Co., Ltd. is a private company based in China. Their most successful games include Haypi Kingdom, Haypi Dragon, Haypi Pirates, Haypi Monster, Haypi Monster: The Lost Tower, and Haypi Adventure. Haypi's mobile games have been downloaded over several million times by players from around the world. All these games are free to download, and offer in-game purchases. People of all ages and walks of life are welcome to join Haypi's family!
