

# NetBacters Teach the Rope

*The Exciting Thriller is on Kindle Store*

IRVINE, CA, USA, July 6, 2014  
/EINPresswire.com/ -- [NetBacters](#) is a book about a new game called NetBakter. The story takes place in America any day now. There are two main parallel stories. One thread is the NetBakter world championship; the other is a political crime story. The book explores how these two stories are entwined as the events unfold over a period of six hours.

NetBakter is a popular sport and a national obsession. The main part of the game is the net, which is stretched over the field. It is a special net, full of forks and branches, gathered in bunches—in knots—which, according to the fundamental rules of the game, one must overcome to reach the goal. When our story opens, the greatest NetBakter world championship is taking place. In the political field, the main parties prepare to announce their candidates. The presidency of the United States is at stake.

LT, the author of NetBacters said "I was deeply impressed when I show the first series of 24. The story griped me, it was fast and exciting. I decided, I wrote a story, which is as fast as 24. I do think, I did it. Test the [excerpts](#) on the site of NetBacters. Watch here the video trailer, too."

The NetBacters have to reach the

finishing point by avoiding the traps devised by their opponents, and only the fastest may win. Recent technological developments have changed the game. The net is a multi-stage complex of rope, metal, and synthetics, and the knots have become complex computer-controlled mechanisms. Furthermore, the players (the NetBacters) enjoy celebrity status. CT is the favorite to win. In the political field, Born, the leader of the opposition party, learns that an influential business man, Albin Affeer, plans to destroy Governor Gerdot. Gerdot is the party's most likely nominee. Born assumes Affeer's attack is

dangerous for the entire party, and since he cannot stop Affeer, he decides to undermine the plot. His tactics are simple. If Gerdot survives, then Born will push for Gerdot's nomination. However, if Gerdot loses, Born will have to make disappear as if he had never run. Consequently, he conspires with his most reliable allies. At the last minute, they put forward a surprise candidate: CT, the popular and well-known NetBakter. CT has no knowledge of his nomination, since he is playing in the world championship at the time.

The author added "This book is really a film. The reader feels that he is in the story, that he is part of the events. Or is this more than just a film? In reality, NetBakter is an old game, and we do not need a net to play it. Only professional players use the net; we ordinary people make do with others. Yes, we all know the ropes."

Well, that's just how NetBakter is.
