

Kids Medal At Saving The World

*Reward your Children for Protecting our Natural Resources
(and Lowering Your Utility Bills)*

SANTA MONICA, CA, USA, July 8, 2014 /EINPresswire.com/
-- While protecting our environment's valuable assets
continues to be of high importance, it's encouraging to
know that leading the way in preserving our planet is our
most valuable asset; our kids!

"[Environ Medals](#)" was created 7 years ago by Santa
Monica, California residents, Mimi and Jon Torp, to
reward their young daughter, Emily, for her diligent
efforts to protect our planet's eco-system. As other
parents and educators heard about the program and
wanted their kids and students to participate, the Torp's
quickly recognized that there was a serious lack of environmental awards to thank all the young
people who work so hard to make our planet a cleaner and safer place to live.

"Saving the Earth's resources should be a sport. It'd be great if parents and teachers could
reward their kids for their reduce/reuse/recycling efforts as
much as they do for playing soccer or softball," says Jon.

“

Saving the Earth's resources
should be a sport. It'd be
great if parents and
teachers could reward their
kids for their
reduce/reuse/recycling
efforts as much as they do
for playing soccer or
softball"

Jon Torp

The Torps began the program at their daughter's Santa
Monica, California school, Franklin Elementary, and thanks
to word-of-mouth and the launch of their website
Environmedals.com, it rapidly expanded to Malibu's Point
Dume Elementary as well as schools in Temecula and even
in Washington State.

"The younger kids are the most excited about it," Mimi
says, "Which is good, because we want kids to start
thinking early on about conservation so it becomes

automatic - just like putting on a seat-belt. And the fact that they'll earn a medal for their efforts
truly motivates them".

Environmental Award for kids

The parents are enthusiastic because the kids' conservation efforts are not only bettering our

planet, but producing a marked decrease in utility costs.

The kids are asked to do such things as:

- Turn off the water when brushing your teeth
- Recycle cans, plastic bottles, newspaper and magazines
- Encourage Dad to turn off the water while shaving
- Bring Trashless Lunches to school. Use Lunch Boxes instead of paper bags. Carry food in reusable containers and water bottles
- Choose one glass to use all day or use a water bottle. (This will cut down on the number of glasses to be washed)
- Turn off the TV when not watching it
- Turn off lights when leaving a room
- Take a five minute shower instead of a bath
- Use both sides of paper

Kids everywhere can earn a medal by downloading a checklist from EnvironMedals.com. Once a minimum of 25 BOXES have been checked and reviewed by a parent or Guardian, go to ENVIRONMEDALS.COM and click on the CHECKLIST COMPLETED link. Fill-in the accomplished tasks and delivery information and the Torps will send the "Eco-Warrior" their complimentary "Planet Earth ENVIRON MEDAL" to commemorate their great achievement.

Each engraved shiny gold medal, designed by Jon and crafted by a Wisconsin medal maker, dangles on a shiny green ribbon and bears the proud slogan, "Champion of a Greener World".

The Environ Medals program was featured on CNN Headline News and the Torps have been honored by the Los Angeles Business Journal with a prestigious Green Agent Realtors Award for for their earth-friendly program.
