

Michelle Vetterl of Good 4 Gold to be Featured on Close-Up Talk Radio

DELTA, BRITISH COLUMBIA, CANADA, July 15, 2014 /EINPresswire.com/ -- We drink [coffee](#) every day and we drink a lot of it. It's how we start our day. It's how we get through our day. And then we have a cup after dinner. But if we're going to drink it every day, why not go one step further and make it healthy?

Michelle Vetterl is the founder of Good 4 Gold, a national distributor of products from the Canadian-based Organo Gold.

"Good 4 Gold is a name I came up with because to me the coffee is black gold," says Michelle. "I just love the product and I want everyone to know: not only does it taste great, it's healthy for you, too!"

Organo Gold's founder Bernie Chua designed a way to infuse [Ganoderma](#) into organic coffees and teas and other healthy products. Known as "The King of Herbs," Ganoderma has been celebrated for its unique ability to rapidly oxygenate the body. No disease can survive in a super oxygenated environment, so when your body has sufficient oxygen, it thrives.

"For me personally I was able to find more energy during the day than I used to have," says Michelle. "I didn't have the awful side effects of the coffee. And there's no bitterness from the infusion of the Ganoderma into the product. You're waiting for an aftertaste and it never comes."

“

Not only does it taste great,
it's healthy for you, too!

Michelle Vetterl

Michelle says the best part of Organo Gold's products is the variety.

"I can have Hot Café Mocha in the morning or in the afternoon I have the choice between a Hot Café Latte or an Iced Café Latte in the afternoon," says Michelle. "I can also enjoy a

relaxing cup of Organic Green Tea at night with some lemon in it. Before it was the same old thing, now I'm actually enjoying every sip."

Close-Up Talk Radio will feature Michelle Vetterl in a two-part interview with Doug Llewelyn on July 17th at 5pm EST and with Jim Masters on July 24th at 5pm EST.
