

New 2014 Jeep Cherokee Available In Four Models At Northstar Chrysler Jeep Dodge

Northstar Chrysler Jeep Dodge in Brisbane is now booking test drives of the new Jeep Cherokee. The mid-sized SUV is available in four different models.

REDCLIFFE, QLD, AUSTRALIA, July 15, 2014

/EINPresswire.com/ -- The 2014 model year has brought four different models of the new Jeep Cherokee to Brisbane. [Northstar Chrysler Jeep Dodge](#) in Redcliffe has all four models in stock and ready for test-drives. The four models are: Sport, Longitude, Limited and Trailhawk.

"The Jeep Cherokee

(<http://www.northstarchrysler.com.au/new-vehicles/new-jeep-vehicles/all-new-2014-jeep-cherokee>) has been

redesigned. It's more compact than it used to be, which is right in line with what today's buyers want. But it hasn't lost any of the performance features or luxury touches it became famous for. If anything, it's gained a few," said [Bob Aldons](#) of Northstar Chrysler Jeep Dodge in Redcliffe (<http://www.northstarchrysler.com.au/>).

Some of those luxury touches include jewelled headlamps, heated leather seats, a Uconnect touchscreen control and navigation system, and the new CommandView dual-paned sunroof. The 2014 Jeep Cherokee retains the off-road capabilities Jeep is famous for. An intelligent All-Wheel Drive (AWD) system automatically responds to changing road conditions ensuring a smooth drive no matter what the adventure brings. Handling is further enhanced with Select-Terrain technology. Select-Terrain adjusts handling based on the environment. Drivers can choose from three different terrain options: Snow, Sport, Sand/Mud and Rock to ensure optimal performance for the conditions.

3 different engine options power the new Cherokee.

- 2.4L TigerShark petrol engine provides the perfect balance of efficiency and power, delivering 130kW and 229 Nm of torque. TigerShark is available on the Sport model only.
- 3.6L V6 VVT Pentastar engine provides 200kW and 316 Nm of torque to tackle any terrain. This engine is not available on the Sport model.

- 2.0L I-4 Common Rail Diesel Engine combines a 9-speed transmission with FIAT's Multijet technology to deliver fuel-efficient performance and 125kW and 350Nm of torque. The diesel engine is only available on the Limited model.

"The Cherokee has always been that vehicle that can take drivers from the office to the beach to the Outback - with no problem. It's comfortable and classy but still sporty and spacious enough for cargo. That versatility is one of the reasons it's a consistent best-seller and that definitely hasn't changed with the 2014 model year," noted Aldons.

Auto shoppers who want to test-drive the Jeep in Brisbane can visit Northstar Chrysler Jeep Dodge at 320 Anzac, Avenue, Kippa-Ring 4021, Redcliffe, QLD. The Five-Star dealership even lets shoppers [book a test drive online](http://www.northstarchrysler.com.au/) at <http://www.northstarchrysler.com.au/>.

About Northstar Chrysler Jeep Dodge Redcliffe: Northstar Motor Group is South East Queensland's largest Chrysler, Jeep, and Dodge dealer. Serving the Brisbane auto market since 1968, the family-run company has grown to include five locations. The company is dedicated to maintaining its family atmosphere and is actively involved in their local communities.
