Australia is in trouble the national debt of nearly \$666 billion is escalating at \$1 billion every month interest. (source 'message from the Prime Minister- Centreline publication 'News for Seniors' issue 92 June 2014)

Jobs are being lost every day. The 'I'm in again Parties' have taken turns in government for decades and the first thing the present government did was to legislate to increase the permitted level of the national debt of Australia.

THEY KNOW KNOW NOT WHAT TO DO! I DO!

"I will reduce the top rate of 49% income tax payable by top end earners to 25% (twenty five percent) and for all tax payers also to 25% (twenty five percent) Flat tax. That way all will pay less taxes and a fair deal for everybody. and this with my other policies with reduce the national debt to zero!

I will create thousands of new jobs with a "Aussiewood" - a rival for Hollywood.

I will create many jobs with a new Australian Car built by Australians in Australia.

I will end the outsourcing of jobs i.e. Call Centres - a threat to national security. Australians can do these jobs - JOBS FOR AUSTRALIA!
