

Portable Wireless Speaker - Loud as Pneumatic Drill!

Designed for people with hearing loss, SoundBox reinforces TV Sound, making it as loud as a pneumatic drill, whilst reducing distortion.

NATIONAL, NATIONAL, UNITED KINGDOM, July 22, 2014
/EINPresswire.com/ -- NEW amplicomms TV SoundBox
Portable Wireless Speaker - REINFORCE The Sound!

Designed for people with hearing loss, SoundBox reinforces TV Sound, the amplification is optimised making it as loud as a pneumatic drill, whilst reducing distortion.

A portable speaker that brings the sound of the TV, Radio and other music players closer, louder and clearer to you wirelessly, even with your TV speaker turned off.

Improving the sound you receive!

SoundBox has adjustable voice enhancing hi fidelity and rich sound at all volume levels, so you can hear television dialog much clearer. The tone adjustment that ensures you will hear your TV better than ever before! Whilst the Independent Volume Control allows you to mute the sound on your TV so you won't disturb others in the house.

The lightweight SoundBox is totally portable, with a sturdy carry handle, it will reach up to 30 metres without losing the signal; simply connect the base to the sound source and take the speaker into a different room or out to the garden. The speaker has an 8-hour battery life before it needs placing back on the base charger.

Interference free sound spills out of the two 5-Watt speakers to bring natural, crystal clear Stereo TV sound up close and personal, up to 120dB's loud and clear. It also features a socket for headphones or a neck loop for an even more personal sound.

Enjoy detailed sound and dialog with TV SoundBox as recommended by Action on Hearing loss (formerly RNID) Available www.actiononhearingloss.org.uk/shop £130

amplicomms TV SoundBox
