

Revert Recommended for Continued Registration of ISO 9001:2008 and ISO 14001:2004 Certifications

Revert, Inc. has been recommended for continued registration of their management systems through ISO 9001:2008 and ISO 14001:2004.

BOULDER, CO, USA, July 22, 2014 /EINPresswire.com/ -- Revert, Inc., a global leader in delivering on-site [data sanitization](#) and [enterprise IT asset disposition](#) services to customers worldwide, has been recommended for continued registration for two of their three international certifications: ISO 9001:2008 for quality management and ISO 14001:2004 for environmental management and stewardship, respectively, after rigorous external surveillance audits conducted by Platinum Registration. The assessment ensures that Revert's Quality Management System (QMS) and Environmental Management System (EMS) continues to meet all elements of the scope of registration and effectively conform to the requirements set forth in the ISO 9001:2008 and ISO 14001:2004 International Standards. "The continued certification of our quality and environmental management systems through ISO 9001:2008 and ISO 14001:2004 validate the importance we place on protecting our partners and our customers," said Glenn Jacobsen, Chief Operating Officer. "Our quality management system ensures that our customers' data and assets are always secure, and our environmental management system ensures that their assets shall be handled and dispositioned in [compliance](#) with governmental legislation and regulatory standards. We are proud of this commitment and thereby our unique position in the global marketplace."

Revert was recommended for continued registration for the international certification of their occupational health and safety management system, OHSAS 18001:2007, in April 2014.
