

# MF Supply Announces full line of Military and Domestically Made Dowel Pins as demand surges

LODI, NEW JERSEY, UNITED STATES, July 30, 2014 /EINPresswire.com/ -- MF Supply, a woman owned and operated distributor of fasteners and electronic hardware (<http://www.mfsupply.com>), is now offering Domestically manufactured and Military Specification DFARS compliant Dowel Pins in both Alloy and Stainless Steel.

Dowel Pins are cylindrical shaped straight metal pins with a centerless ground finish. Typically hardened and manufactured to precise fractional diameters and lengths, Dowel Pins are used as a hinge, shaft or pivot to locate or hold parts together within a precision assembly or a fixture. Dowel Pins are manufactured by factories in the U.S. and are imported from offshore factories. Manufacturers purchase these parts by size and material, by Military Specification such as MS16555, and by brand name such as Pic, WM Berg, Blue Devil, Unbrako or Holo-krome.

According to company President Robin Lieberman, "We have seen demand for domestically manufactured and Mil-spec Dowel Pins skyrocket in the last 12-18 months. Manufacturers seeking exacting tolerances to the highest standard, and manufacturers whose end customer is the military are choosing domestic and Military Specification Dowel Pins to help meet this goal. Military-spec Dowel Pins have the added benefit of meeting the DFARS requirement set forth by the Defense department."

MF Supply's line of Dowel Pins debut at ([http://www.mfsupply.com/dowel\\_pins\\_s/1925.htm](http://www.mfsupply.com/dowel_pins_s/1925.htm)). The line includes commercial, domestic and military parts including: Mil-P-21143, MS16555, and MS16556 in alloy and 416 stainless steel.

MF Supply's expert sales team is ready to help answer your questions by phone, fax or email..
