

# New American Funding Wholesale Has Five Consecutive Record Breaking Months

---

*Since February of 2014, New American Funding Wholesale has increased production by 159%.*

TUSTIN, CA, USA, August 12, 2014 /EINPresswire.com/ -- Since February of 2014, [New American Funding Wholesale](#) has increased production by 159%. Over the past five months the division has continued to reach new highs month after month.

Vice President - Wholesale, [Mike Clary](#), believes the success of his team is driven by the expansion of operational activity, increased market expansion, and high customer satisfaction. Now licensed in 33 states, New American Funding Wholesale is able to reach previously underserved markets and take advantage of the many loan opportunities within these areas. Having this ability to reach more clients, along with New American Funding's firm belief in the importance of spectacular customer service in order to earn more repeat and referral business, New American Funding Wholesale is on the fast track to success for the remainder of the year, and into the next.

Clary commented: "2014 has been a dramatic year of change for the mortgage industry as a whole, but the impact of the changes made has had a profound effect on the way a mortgage broker does business. New American Funding realizes this, and is highly committed to creating and maintaining its relationship with the broker community... This unprecedented growth in New American Funding Wholesale has been driven by expansion of both the sales and operations team, as well as increased loyalty and repeat business from our broker partners. We are grateful to the broker community for their continuous support and plan to continue to earn their business with aggressive product lineups and stellar support."

The division has already successfully entered 10 new states; Clary and his team are excited at the continued expansion of physical representation and the opportunity to serve the broker communities in each new market.
