

# Skyline Exhibits, A Leader Among Trade Show Display Companies, Is Manufacturing Award Finalist

*Skyline Exhibits is a finalist for the 2014 Minnesota Manufacturer of the Year Award. The company manufactures exhibits and banner stands for use worldwide.*

EAGAN, MN, USA, August 12, 2014 /EINPresswire.com/ --

[Skyline Exhibits](#) is a finalist for the 2014 Minnesota Manufacturer of the Year Award. Awarded annually by Minnesota Business magazine, the award recognized businesses for their recent accomplishments, new products or services, competitive improvements and successes. This is the second year in a row that Skyline Exhibits has been a finalist for the award. Skyline is among three finalists in the "Best in Class: Large Company" category, recognizing overall excellence in manufacturing. The other two finalists are Turck and Uponor.

"Skyline started business in 1980. It consisted of our founder and a K-car. Today, we have a presence in 30 countries. Our growth can be attributed to our passion for design and quality manufacturing. We are honored to be a finalist for this award and to be in the company of exceptional organizations like Turck and Uponor," said [Bill Dierberger](#), President of Skyline Exhibits ([www.skyline.com](http://www.skyline.com)).

Skyline is a leader among [trade show display companies](#) and is known for new and innovative trade show ideas. In fact, over 29% of current Skyline revenues can be attributed to products that did not exist 5 ½ years ago. Among those are Envoy® and WindScape®. Envoy® has become Skyline's most popular system while WindScape® has completely revolutionized exhibiting as the world's first air-powered exhibit system. Both Envoy® and WindScape® are award-winning systems that have been recognized for product design.

"Skyline is a progressive company and we are committed to ongoing product development. The products we design and manufacture help our clients exhibit more efficiently and effectively. Our goal is to help them grow their businesses through trade shows and other marketing events," stated Dierberger.

Skyline has already proven to be an award-winning company, most recently having won the

Outstanding Corporate Innovator (OCI) Award, from the Product Development and Management Association (PDMA) in 2012. This international award recognizes sustained success in new product development. Previous winners include Apple, BMW, Dow, Harley-Davidson, Merck, and PepsiCo.

In addition to custom exhibiting systems, Skyline provides banner stands, graphics and even rental exhibits for those who exhibit only occasionally or who don't need large exhibits. The company offers educational seminars and trade show marketing tips several times throughout the year to help their customers make the most of their trade show investments.

Finalists for the 2014 Minnesota Manufacturer of the Year Award will be profiled in the October 2014 issue of the Minnesota Business magazine. The winner of each category will be announced at a September awards event in downtown Minneapolis.
