

IT Governance sees Everest Data Centres through to ISO27001 certification and PCI DSS compliance

IT Governance has reported that its client Everest Data Centres has achieved certification to the ISO27001 standard and compliance to PCI DSS.

ELY, CAMBRIDGESHIRE, UK, August 13, 2014 /EINPresswire.com/ -- IT Governance, the global provider of [ISO27001](#) and PCI DSS compliance solutions, has reported that its client Everest Data Centres has achieved certification to the ISO27001 standard and compliance to PCI DSS.

Everest Data Centres used the IT Governance [FastTrack™ ISO27001 Consultancy](#) service to become ISO27001-certification ready, and Geraint Williams, Senior Consultant at IT Governance, provided a [PCI gap analysis](#) for the data centre operator in his capacity as a PCI QSA.

Alan Calder, Founder and Executive Chairman of IT Governance, says, "We are very pleased that our FastTrack™ ISO27001 consultancy and PCI QSA services helped Everest Data Centres successfully comply with two major international standards. Achieving ISO27001 certification and complying with the PCI DSS at the same time requires excellent project management and commitment. On the other hand, the benefits to the company and its customers are considerable and make the investment worthwhile."

A statement on the Everest Data Centre corporate blog highlights the business benefits of compliance: "The certification process is now complete, so all Everest clients can rest assured they benefit from using a data centre with the highest standards of information security."

ISO27001 is the international standard describing best practice for an information security management system (ISMS). It helps organisations comply with a single, internationally-accepted standard for an international scope of operations.

IT Governance's FastTrack™ ISO27001 Consultancy is designed to help small organisations with 19 or less members of staff and a single office location achieve a UKAS-accredited certification to ISO27001 in just three months for a one-off consultancy fee.

IT Governance provides consultancy services on management systems implementation and compliance including ISO27001, PCI DSS, ISO9001, ISO22301, ISO20000 and other standards.
