

# Transportation Logistics Leader Ahern & Associates to Close Three New Clients in August and September

*Trucking and consulting management firm Ahern & Associates continues to lead the transportation industry*

PHOENIX, AZ, UNITED STATES, August 13, 2014 /EINPresswire.com/ -- Ahern & Associates, a leading national trucking consulting firm, has announced that it has received three additional letters of intent with closings to be scheduled between August and September. Founded in 1987 by Andy Ahern, the company continues to grow and retain its position as one of the leading, most trusted trucking and logistics companies in the world.

These are in addition to the three very most recent new clients Ahern & Associates brought on board at the end of July. The three clients welcomed in July include a company that engaged the trucking and transportation logistics firm to review opportunities that generate at least \$50M and over in annual revenue, and is also interested in reviewing companies that provide road mobile construction equipment like excavators, street sweepers and reinforced agricultural equipment. Another new July client is looking for a freight broker that deals in bulk commodities that include salt, sand, silica, ammonium nitrate, alumina, feed phosphates, woodchips, and others. A third client has asked Ahern & Associates specifically for companies in the areas of St. Louis and Atlanta for smaller refrigerated carriers with strong management teams.

With each new client comes an opportunity to expand the diversity in the searches that Ahern & Associates performs, widening its network of carriers, manufacturers, businesses, owners and brands. As this search network grows, Ahern & Associates adds to its resources to match clients with transportation businesses they may be interested in that match varying degrees of characteristics and criteria. For example, one new client has engaged Ahern to review businesses that generate at least \$50M in annual revenue, is a commercial trailer manufacturer, includes vocational service bodies and has a strong EBITDA.

2014 has been and continues to be a year for the books for Ahern & Associates, as evidenced by the number of new clients the firm continues to close and retain. The transportation management consulting firm offers services in mergers, divestitures, acquisitions, software, operational reviews, successor planning, employee evaluation and more. The firm also publishes the Ahern Advisory on a regular basis, an industry newsletter that reaches 225,000 readers each week. Written by founder and CEO Andy Ahern, it has become one of the trucking and logistics industry's best-read publications.

Any parties interested in further information should contact Ahern & Associates, Ltd at 602-242-1030 or visit <http://www.ahern-ltd.com>.

###
