

# Sweden's leading water cleaning tech company Bluewater launches in Mexico

*Bluewater, the Swedish residential and light commercial water purification tech company, launches sales in Mexico in partnership with Pure Water Technology*

STOCKHOLM, SWEDEN, August 18, 2014 /EINPresswire.com/ -- Mexico's restaurant owners can look forward to giving customers cleaner, healthier drinking water direct from the tap after Swedish water purification technology company Bluewater partners with Pure Water Technology, a leading supplier to the Mexican catering industry.

Pure Water Technology is the first official distributor of Bluewater's innovative second generation reverse osmosis water purifiers, which remove practically all known contaminants from drinking water.

Bluewater's North American national sales representative Arene Guo, who negotiated the agreement on behalf of Bluewater, says the company's entry into Mexico is a new chapter in the growth of the Swedish residential and light commercial technology company in the Americas.

Bluewater's Mexico launch is a new chapter for the Swedish residential water technology company in North America..

"Less than eight months after we launched in the United States, we are already generating considerable interest in Bluewater's tap drinking water purification technology beyond America's borders," said Ms. Guo.

“

Bluewater's SuperiorOsmosis™ efficiently cleans tap drinking water of toxins, chlorine, bacteria and viruses, salt, heavy metals, nitrates and fluoride, hard water, arsenic, and poor taste and smell"

*Arene Guo*

Pure Water Technology will be importing Bluewater's mid-range Spirit and high-end Pro models, which both harness the Swedish company's unique [SuperiorOsmosis™](#) technology. The SuperiorOsmosis™ water purification technology is designed to generate clean water 24 hours a day as and when required, using little energy and slashing the water wastage commonly associated with traditional reverse osmosis systems.

"Bluewater's SuperiorOsmosis™ efficiently cleans tap drinking water it of toxins, chlorine, bacteria and viruses, salt, heavy metals, nitrates and fluoride, hard water,

arsenic, and poor taste and smell," said Arene Guo.

She added: "Innovated with love in Sweden, Bluewater's exciting technology delivers an unmatched clean water delivery rate, filtration, capacity and efficiency to help ensure tap drinking water in professional work environments such as hotel kitchens, or at home, is free of micro-organisms and other contamination."
