

IT Governance congratulates Today Translations on obtaining ISO27001 certification with FastTrack™ ISO27001 service

IT Governance, the global leader in ISO27001 expertise, is pleased to congratulate client Today Translations on their recent ISO27001 certification.

ELY, CAMBRIDGESHIRE, UK, August 20, 2014 /EINPresswire.com/ -- IT Governance, the global leader in [ISO27001](#) expertise, is pleased to congratulate client Today Translations on their recent ISO27001 certification. Today Translations used the cyber security firm's Fast Track™ [ISO27001 consultancy service](#) to prepare for certification and were awarded their ISO27001 certificate after successfully passing the independent audit.

In a press release published on the Today Translations website, the company's founder and CEO, Jurga Zilinskiene, said:

"People and companies want to know their information is safe from cyber-crime; they also want assurance that a third party has physical security covered and has measures in place to prevent fraud, bribery and corruption.

"Cyber-attacks are becoming more and more prevalent, putting both small and big-ticket businesses at risk. I think, and hope, that more businesses will make the effort and investment to have the necessary controls that protects their and their clients' sensitive data."

Alan Calder, founder and executive chairman of IT Governance, said, "Today Translations has demonstrated that it is a cyber security-conscious company – a trait that is increasingly important for any business. It understands that information is a valuable asset that can make or break a business.

"I am delighted that we had the opportunity to work with Today Translations' team and, thanks to our specially designed FastTrack ISO27001 consultancy service, we managed to help them achieve their goal quickly and cost-effectively."

ISO27001 is the best-practice specification that helps businesses and organisations throughout the world develop an information security management system (ISMS). An ISMS is a systematic approach to managing confidential or sensitive corporate information so that it remains secure (i.e. available, confidential and with its integrity intact). The ISO27001 standard is implemented by companies globally as means of combating cyber crime, providing customer reassurance and gaining competitive advantage.

IT Governance has recently become the first company in the world to launch 'all-in' ISO27001 packaged solutions that are accessible online and can be deployed by any company, anywhere in the world, that wishes to implement the ISO27001 standard and prepare for certification.

Each solution is a combination of products and services in a fixed-price, fit-for-use package sure to meet any organisation's preferences for tackling ISO27001 compliance projects. Each of the

four ISO27001 packaged solutions is available at a transparent price that enables every organisation to know exactly what their chosen journey to ISO27001 certification will cost them.

The all-in, ISO27001 'Do-it-yourself', 'Get a little help', 'Get a lot of help' and 'We'll do it for you' packages can be ordered online at www.itgovernance.co.uk/iso27001-solutions.aspx.

Alternatively, organisations can call +44 (0)845 070 1750 or send an email to request a custom quote.
