

XBOSoft Offers Upgraded and Seamless Version of Company Website

San Francisco, CA software testing firm, XBOSoft, has recently unveiled an upgraded version of the company's website making it more seamless and on-brand.

SAN FRANCISCO, CA, USA, August 22, 2014 /EINPresswire.com/ -- S.F.-based software testing and quality control firm, XBOSoft, has unveiled an upgraded version of their company's website. An XBOSoft spokesperson said improved design and functionality make the new website more seamless and on-brand.

"Now XBOSoft.com more clearly demonstrates our understanding of our clients' problems and the issues facing them," said Phillip Lew, CEO of XBOSoft. Lew also noted that among the many improvements to XBOSoft.com are integration with backend systems that enable faster client responses and easier and more clear navigation.

XBOSoft specializes in software test consulting mobile application testing, usability testing services, web application testing as well as other function testing services.

"The new site is mobile responsive, context driven and allows for a much more rewarding user experience," added Lew. In detailing what he means by context driven content Lew explained that the new XBOSoft website will show the most appropriate auxiliary content depending on where a user is on the site.

The newly designed XBOSoft website also features stronger calls to action, easier access to free resources such as white papers, case studies and contact information, and the new Pricing Inquiry form. On this page a visitor can submit a pricing request based on their responses to a short list of questions about the specific type of software testing help they require.
