

Now Hiring: Skyline Event Services, Specializing In All Things Trade Show Exhibit In Cleveland

Skyline, now hiring, offers services to help a company maximize ROI on its trade show stand in Cleveland. They also offer trade show displays in Toledo.

CLEVELAND, OH, USA, August 30, 2014 /EINPresswire.com/ -- [Skyline Event Services](#) announced that they are now hiring positions in sales and design (<http://www.skyline.com/meet-skyline/about/careers>). Skyline is a worldwide provider of trade show products and services. They have over 130 dealers in more than 30 countries around the world. Skyline has a reputation for innovative products, having recently debuted WindScape, the world's first ever air-powered exhibit system. Customers can now purchase this [trade show exhibit in Cleveland](#).

"Working at Skyline is an amazing career opportunity. Skyline has been setting the industry standard for high quality, innovative trade show products and services for over 30 years now. When it comes to the design and manufacture of trade show exhibits, excellence is our standard. We also provide exceptional service throughout the trade show experience. At Skyline, we strive to always exceed our customers' expectations. Our team of committed and passionate employees makes it possible. We provide a work environment that is creative, fun, and challenging, never settling for the status quo. We hire individuals who are hard-working and who desire to truly make a difference," said [Kristie Jones-Damalas](#) of Skyline Event Services (www.skylinees.com).

Skyline offers a variety of trade show displays in Toledo. Clients can choose the type of trade show products that best fit their needs and their budget. Larger options include custom island exhibits, typically used by industry leaders. A study by Tradeshow Week revealed that Skyline's exhibits weigh about 60% less than traditional custom exhibits, saving their clients time and money.

Modular inline displays are another option exhibitors have for their trade show stand in Cleveland. Though these exhibits are smaller than the custom island exhibits, they still allow for built-in presentations and product display. They are designed to be lightweight and easy to install.

Skyline also offers many different portable display systems, catered to clients who prefer to store, transport, and install their displays themselves. These do-it-yourself displays include pop-

up and back wall displays, banner stand displays, and tabletop displays.

In addition to their products, Skyline also offers a variety of trade show services. They not only design and manufacture trade show exhibits, but they also service and manage them as well. Larger companies opt to have a team of professionals from Skyline transport and install their exhibits for them, allowing them to arrive to an event ready to go. Skyline's other services include event marketing, in-house graphics, and creative services.
