

IT Governance congratulates legal sector client Aberdeen Considine on its ISO27001 certification

IT Governance is proud to congratulate law firm Aberdeen Considine on its recent certification to the international information security standard ISO27001.

ELY, CAMBRIDGESHIRE, UK, September 2, 2014 /EINPresswire.com/ -- IT Governance, the global leader in [ISO27001](#) expertise, is proud to congratulate law firm Aberdeen Considine on its recent certification to the international information security standard ISO27001. The law firm used IT Governance consultants to assist it in preparing for certification.

Alan Calder, founder and executive chairman of IT Governance, says, "I am delighted that Aberdeen Considine has been awarded its ISO27001 certificate following an independent audit that proved the company meets the Standard's rigorous requirements.

"With information such as case files, time and billing reports, and correspondence now existing in both physical and digital formats, it is important to adopt a management system approach to information security. Aberdeen Considine's ISO27001-compliant information security management system (ISMS) is proof that great care has been taken to protect the company's and its clients' information, and with it the law firm's reputation."

[The Lawyer](#) warned back in 2013, that law firms are at an immediate threat from cyber attacks. It stated: "Law firms are in the front line of cyber security threats, with hackers increasingly targeting the legal profession for the goldmine of sensitive and confidential client data firms hold."

ISO27001 is regarded as the international best-practice framework that enables organisations to systematically and consistently protect their information assets and customers' data.

IT Governance has recently become the first company in the world to launch 'all-in' [ISO27001 packaged solutions](#) that are accessible online and can be deployed by any company, anywhere in the world, that wishes to implement the ISO27001 standard and prepare for certification.

Each solution is a combination of products and services in a fixed-price, fit-for-use package sure to meet any organisation's preferences for tackling ISO27001 compliance projects. Each of the four ISO27001 packaged solutions is available at a transparent price that enables every organisation to know exactly what their chosen journey to ISO27001 certification will cost them.

The all-in, ISO27001 'Do-it-yourself', 'Get a little help', 'Get a lot of help' and 'We'll do it for you' packages can be ordered online at www.itgovernance.co.uk/iso27001-solutions.aspx.
