

# TSL Bluetooth RFID Reader Deploys Tyco's TrueVUE 5.1 Software

*TSL's mobile RFID readers work with latest iOS version for RFID-based inventory visibility in large-scale retail deployments*

LEICESTERSHIRE, ENGLAND, September 2, 2014 /EINPresswire.com/ -- Today, [Technology Solutions \(UK\) Ltd](#) (TSL), a developer of best-in-class RFID devices and mobile data capture solutions, announced that TrueVUE 5.1 software from [Tyco Retail Solutions](#) works with TSL mobile UHF RFID readers for retail inventory management.

TSL's wireless-enabled handheld readers, such as the high-performance [1128 Bluetooth® UHF RFID Reader](#), offer cost-efficiency, ease-of-use and compatibility with a range of host devices via Bluetooth® wireless communications. These universal UHF RFID readers are ideally suited for use with the TrueVUE software and iOS-powered mobile devices, including the iPhone or iPod Touch, in retail environments.

The Tyco TrueVUE application facilitates centralized setup and control of inventory management for retail accuracy, visibility and operational efficiencies. Using centralized system deployment and increased mobility, personnel are empowered to easily access information anytime, anywhere, and from any device.

"TSL's 1128 Bluetooth® UHF RFID Reader and other ASCII 2 compatible products make it easy to quickly integrate into commonly used software environments, including iOS, Android and Windows," said Dr. David Evans, managing director of TSL. "Our versatile, universal mobile hardware solution offers a lower total cost of ownership, making it very attractive to large retailers."

"TrueVUE v.5.1 helps retailers maximize their current investments in cloud and mobile technologies and seamlessly improve store efficiencies," said Nancy Chisholm, president, Tyco Retail Solutions. "The updated platform makes use of retailers' investment in cost-effective iOS devices, combined with TSL RFID readers, to improve in-store mobility and accelerate large scale deployments, thereby increasing inventory accuracy and decreasing out-of-stocks."
