

Haypi Kingdom: The Return of the King Beta Test Patch 0.9.14 Approaching Perfection

The official version is also on its way, but in the meantime, the priority is in perfecting the game for the beta clients

SHANGHAI, SHANGHAI, CHINA, September 5, 2014 /EINPresswire.com/ -- A free fun MMO is [here](#), for the amusement of all mobile players. Haypi Kingdom: The Return of the King is a strategic war game, inspired by Haypi's first hit on the iOS platform – Haypi Kingdom. The “brother game” has much more to offer, and is expected to surpass the success of its “little brother”.

[Haypi Co., Ltd.](#) has proved to be an amazing mobile games developer. Haypi's team would always tries to perfect their games before launch. Recently Haypi has released another version of the closed beta test of Haypi Kingdom: The Return of the King – patch 0.9.14. The official version of Haypi Kingdom: The Return of the King for iTunes is also on its way, but in the meantime, the priority is in perfecting the game for the beta clients.

As always, Haypi's new update brings significant improvements to the gameplay. To mention some examples, a new translate feature has been added to the Chat. Haypi Kingdom: The Return of the King is a fascinating MMO with loads and loads of player interaction. Of course, there is a popular chat, where exciting conversations take place during the fierce battles. Now, players from different regions can communicate with each other smoothly in their mother tongue under the assistance of "translate". Among the general optimizations, most importantly there are improvements made to Server-client synchronization. The transmission of data is now better when it comes to data changes, such as resource increment or decrement, total troop count change and so on. The frequent data transmission between server and client will be instantly refreshed, and that will be reflected immediately on the client. As far as the gameplay is concerned, Haypi's team would point out the fine-tuning which makes everything smoother and more stable. Lately, Haypi is also aiming at perfecting of their UI, and with every beta test update, they are getting closer and closer to it.

Haypi is working continuously on the improvement of the beta version of Haypi Kingdom: The Return of the King. Anytime soon, the official version of the game will also be available for free download from iTunes. After the launch of the game on the AppStore, Haypi will give away the promised awards. Player's feedback has helped the developer in their work on improving Haypi Kingdom: The Return of the King. Therefore, amazing bonuses will be given to the players who provided the most useful feedback.

The developer Haypi Co., Ltd. is extremely grateful to the [fans](#), who have loved and supported all Haypi games through the years. And now, Haypi's team is also very thankful for the player's support during the Beta testing of Haypi Kingdom: The Return of the King.
