

IT Governance 'delighted' with client Amicus's ISO27001 certification success

IT Governance is delighted that its client Amicus has achieved ISO27001 certification with the help of the IT Governance consultants.

ELY, CAMBRIDGESHIRE, UNITED KINGDOM, September 8, 2014 /EINPresswire.com/ -- IT Governance, the global leader in [ISO27001](#) expertise, is delighted that its client Amicus, an IT managed service provider, has achieved ISO27001 certification with the help of the IT Governance consultants.

Alan Calder, founder and executive chairman of IT Governance, says, "I am pleased that Amicus have been awarded ISO27001 certification and the hard work put in by their team and our consultants has paid off. I am confident that Amicus will be reaping the many benefits from their certification in the weeks and months to come."

ISO27001 is regarded as the international best-practice framework that enables organisations to systematically and consistently protect their information assets and customers' data. ISO27001 certification also gives companies a competitive edge and the opportunity to tender for projects for which certification is a requirement.

ISO27001 certification is often a supply chain requirement and, as such, can help organisations broaden their client base, supply chain network and support business opportunities in international markets where the standard is recognised.

Good security practice has increasingly become a client requirement and can prove a decisive criterion for clients to stay with a particular vendor, especially at a time when the economic climate forces once loyal clients to look around.

Other [ISO27001 benefits](#) include: enhanced reputation, increased stakeholder trust, meeting regulatory and compliance requirements, and improved internal processes.

IT Governance has recently become the first company in the world to launch 'all-in' [ISO27001 packaged solutions](#) that are accessible online and can be deployed by any company, anywhere in the world, that wishes to implement the ISO27001 standard and prepare for certification.

Each solution is a combination of products and services in a fixed-price, fit-for-use package sure to meet any organisation's preferences for tackling ISO27001 compliance projects. Each of the four ISO27001 packaged solutions is available at a transparent price that enables every organisation to know exactly what their chosen journey to ISO27001 certification will cost them.

The all-in, ISO27001 'Do-it-yourself', 'Get a little help', 'Get a lot of help' and 'We'll do it for you' packages can be ordered online at www.itgovernance.co.uk/iso27001-solutions.aspx.

Alternatively, organisations can call +44 (0)845 070 1750 or send an email to request a custom quote.
