

TEAM International Celebrates 10th Anniversary in Outsourced Software Development Business

TEAM opened its first offshore operations center in 2004. Today software development solutions are provided from Eastern Europe and South America.

USA, FLORIDA, UKRAINE AND COLOMBIA, September 10, 2014 /EINPresswire.com/ -- Matt Moore, TEAM founder and CEO: "I started this IT business in 1991 in Lake Mary, Florida.

Back in 2004 I decided to grow it outside US. Ukraine proved to be a great choice due to [highly-qualified IT talents](#) who can always suggest and fulfill very effective solution of client's need. I see great results and a lot of further potential here. That is why TEAM recently opened one more operations center in Ukraine – in Lviv – as an addition to the first one in Kharkiv. Simultaneously, TEAM is expanding its presence to Latin America – the office in Medellin, Colombia is a good option for US companies that prefer outsourcing to the same time zone and [nearshore location](#)."

TEAM International approached its anniversary with the number of significant [achievements and recognitions](#) that include but are not limited to CMMI level 3 Re-Appraisal, continuous inclusion to IAOP Top 100, Software 500 and other rankings. And the most important achievement for us is customers' success and employees' loyalty.
