

Wi-Fi Point Announces Wireless Internet Offer For Hotels And Service Apartments

Wi-Fi Point introduces an optimal service package for hotels and service apartments at affordable rates.

SYDNEY, NSW, AUSTRALIA, September 12, 2014

[/EINPresswire.com/](http://EINPresswire.com/) -- All aspects of a business now require the facility of high speed and convenient internet access. With the installation of a wireless hotspot, hotels and other accommodation service providers can now provide value added services and help retain guests with a positive experience. [Wi-Fi hotspot service provider](#), Wi-Fi Point, now introduces customized packages for hotels and service apartments, including impeccable wireless internet, onsite installation, [Wi-Fi equipment](#), hotspot controller, support services and other maintenance services.

A spokesperson from Wi-Fi Point commented, "With the trend of globalization, the hotel industry has had to offer more than just good rooms. That's a functional benefit that every decent hotel will provide. What is that added benefit that makes their stay more comfortable and productive? Wireless internet access is just that. It has been concluded that it has now become a necessity for hotels and other service industries to offer internet facilities. This not only enhances customer experience but also translates to increased loyalty and sales. With the help of our services, you can reap considerable benefits off a small investment."

This especially designed offer by Wi-Fi Point offers hotels and service

apartments with opportunity for installation on minimal rates, no set up cost, and no contacts. Furthermore, the offer entails a nominal fee of only \$10 per room per month, with numerous additional benefits. On availing the package rate, hotels can take advantage of high speed [Wi-Fi hotspot service](#) from a reliable service provider.

“

It has been concluded that it has now become a necessity for hotels and other service industries to offer internet facilities.

Wi Fi Point

“We take great pride in our customer service support team, available on a 24/7 basis for any queries or issues that our clients face. It is due to our dedication to excellence that Wi-Fi Point has become a renowned name in the industry of wireless internet in Australia,” further stated the spokesperson.

Along with these services, Wi-Fi Point offers a range of innovative features that can be utilized to increase market share. To view their complete line of products and services, visit their social media page.

Wi-Fi Point offers customers a range of Wi-Fi design, installation and management services to ensure that your business gets maximum advantage by incorporating the latest technology of Wi-Fi hotspot.
