MISSION, BRITISH COLUMBIA, CANADA, September 10, 2014 /EINPresswire.com/ -- A woman from British Columbia, Canada claims to have uncovered definitive proof that covert time travel is taking place, and she says she's ready to prove it.

Not only has she uncovered absolute proof, she has written a book, 'Proof of Time Travel' and has made it available for free download so that she can share it with the world.

The article in which Tripp revealed the truth for the first time a few days ago can be accessed here:

A press kit has been prepared for download at the

link below for those who would like to see some examples of the evidence being presented immediately, but who don't have time to review the eBook until later.

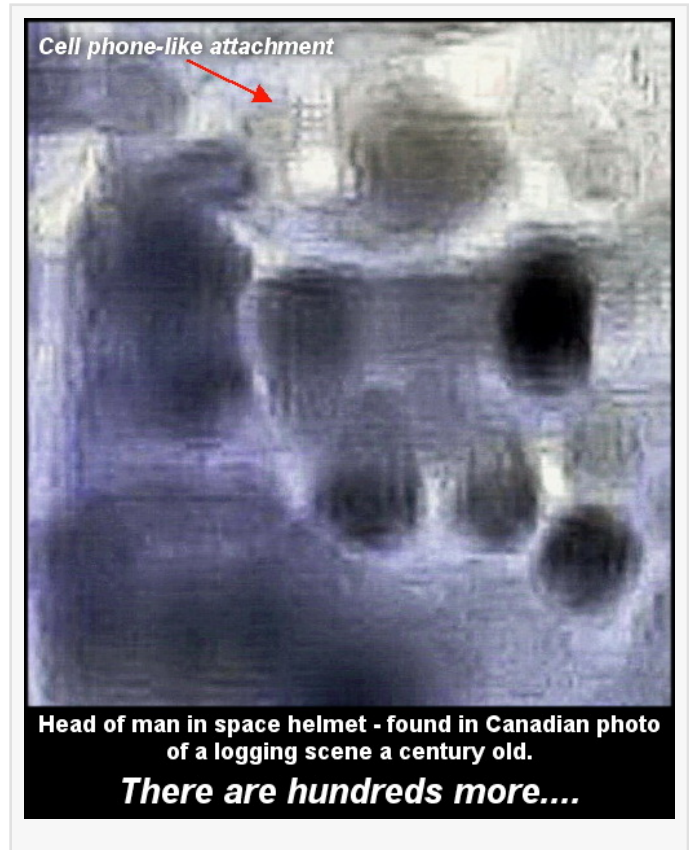

The press kit can be accessed at the following URL: <https://app.box.com/proofoftimetravel>

'Proof of Time Travel' is one of a set of 3 eBooks. Two more books are also available completely free at the same URL. They were written to teach other people exactly how to locate and uncover absolute proof of time-travel for themselves, as well as demonstrating techniques for uncovering very much more than that.

Also offered is a preview document from the 'Pirates of Time' named 'In Her Hand', which demonstrates with startling clarity the presence of super-modern contemporary technology in century-old vintage photographs.

The eBooks are being offered free because Tripp wants the world to know exactly what kind of criminal activities are occurring secretly behind the scenes, and the death and misery that it is bringing to countless innocent people. The world deserves to know the truth.

A full presentation will be made available in the near future. 'The Pirates of Time' will be made available as a 2-part DVD with over 40 photo-articles and articles, all of the same high standard as the free eBooks.

But all the proof you need is in the free books and the 'The Pirates of Time' preview document, as promised.

In these eBooks you will find over 500 pages with over 659 text-accompanied photographic images which are among the most fascinating in the world today.

You will find - and see - the proof in the most amazing way. It's free, it's an absolute first and it's guaranteed to deliver just as promised. You won't be disappointed.

She believes that exposing this extremely dangerous experimentation is extremely important to the future of the planet. For this reason she is preparing the 'Pirates of Time' presentation for release.

Tripp is also a psychic photographic medium. As an interdimensional photographer, her determination to know more about what is hidden in photos that contained anomalies led to her development of an editing technique which allowed her to retrieve imagery from the layers of visual data that these special photographs contain, becoming a 'photographic archeologist'.
