Do not judge a country by how wealthy and influential the people at the top are, judge a country by how the people at the top treat the most vulnerable citizens

Dirty politics and corruption destroys lives, here is what happened when i tried to seek accountability for a systemic

complaint.

My name is,Paul Riddler, i am a TBI survivor, my partner is also disabled from a serious stroke.

Our lives have been destroyed by a corrupt, primary health and disability complaints mechanism, Nationwide health and disability advocacy service and "dirty politics"

I supplied full document proof to the New Zealand Ombudsmens office, no investigation was undertaken, the file was closed.

The possibility exists that a former, New Zealand government minister influenced multiple government entities, and instructed them to conceal my serious complaint, and instructed them not to provide me with legal representation, which i sought through the, Office of human rights proceedings, OHRP, i provided full documented proof to the OHRP.

I am my partners principle carer now, we have been subjected to further wrongdoing by the government, i have tried to stand up for my rights as given to disabled people by the, United Nations CRPD, the New Zealand Ombudsmens office is a monitoring partner for the, CRPD.
