

Plastic Surgery Practice in Naples Awarded Allergan's Diamond Status

Aesthetic Plastic Surgery of Naples achieved Allergan's coveted Diamond distinction, placing it among the top 5% of aesthetic practices nationwide.

NAPLES, FL, USA, September 28, 2014 /EINPresswire.com/ -- Dr. Kent V. Hasen (www.drhasen.com) says his plastic surgery practice in Naples has achieved the Diamond designation by Allergan, making it the only single-doctor practice in southwestern Florida to earn that distinction.

Allergan's Diamond status recognizes aesthetic practices for their experience and expertise using the company's products, such as BOTOX® Cosmetic and the JUVÉDERM® line of dermal fillers. The Diamond distinction puts Dr. Hasen and his practice, Aesthetic Plastic Surgery of Naples, among the top 5% of all aesthetic practices in the U.S.

"This is an accomplishment that our team is quite proud of," Dr. Hasen says. "It is the result of our dedication to providing the best possible aesthetic services to our patients in a safe and comfortable environment."

Allergan is also the maker of the popular Natrelle® line of breast implants, including the Natrelle 410 implants (sometimes referred to as "gummy bear" implants), which Dr. Hasen uses for [breast augmentation](#) in Naples.

A board-certified plastic surgeon, Dr. Hasen says he aims to remain at the forefront of innovations in the field of cosmetic enhancement, offering patients a range of surgical and non-surgical treatments that are clinically tested and shown to be effective. He says his passion for innovation benefits patients, as advancements shorten the amount of downtime needed after surgery and help scars heal faster.

One of the main themes for innovation in the cosmetic enhancement field in recent years, Dr. Hasen says, is the growth in popularity of non-surgical procedures such as Allergan's injectable products.

"We owe our success to the loyalty of our patients, with whom we've developed [lasting relationships](#)," Dr. Hasen says. "We have men and women return regularly for services ranging from surgical procedures to injections of BOTOX."

The Naples, Florida, practice was established more than 10 years ago and has continued to thrive.

"We look forward to the next decade of serving our patients throughout southwestern Florida," the plastic surgeon says, "by continuing to demonstrate our commitment to, and passion for, aesthetic enhancement. This new honor from Allergan is great recognition that we're on the right track."

###

Kent V. Hasen, M.D., (www.drhasen.com) is a Naples, Florida, plastic surgeon and medical director of a full-service aesthetic plastic surgery and cosmetic practice, which has developed a strong reputation in South Florida since opening in 2002.
