Los Angeles, October 2, 2014

Technology Training Corporation Announces an all new symposium on:

“Next Generation Intelligence Surveillance & Reconnaissance (ISR)”

Dates: October 23-24, 2014 at the Wyndham Bayside Hotel in San Diego, CA, 1355 North Harbor Drive, San Diego, CA 92101 (619-232-3861)

Featuring over 20 Leading Experts from: OUSD/AT&L, PEO IEW&S, SPAWAR, USPACOM, DHS, ORS-1/USAF, USN/NSA, (JCS/J2), LLR Partners, The Heritage Foundation, US Army, NGA,

Northrop Grumman, Raytheon, Boeing,
General Atomics Aeronautical Systems, ViaSat, Leidos, SDSU, and Sandia National Laboratory

Special Keynote Presentations by:

- Mr. Ira (Gus) Hunt, President and CEO, Hunt Technologies, LLC and Operating Partner, LLR Partners, (Formerly CTO at the Central Intelligence Agency)
- Dr. Steven Bucci, Director, Douglas and Sarah Allison Center for Foreign and National Security Policy, former Deputy Assistant Secretary of Homeland Defense and Americas' Security Affairs and Military Assistant to SecDef Donald Rumsfeld

Sessions: an Interactive General Session will allow all attendees an opportunity to meet and exchange ideas on the important questions with the Guest Speakers concerning the way forward for the Next Generation ISR and the Government Needs, Initiatives, & Industry Opportunities. 1

About the Program:

This incredibly comprehensive 2-Day General Session and Vendor Exhibition will assemble over 20 Key Organizations and Senior Leading Experts that are executing current ISR requirements and who are shaping the direction of future ISR capabilities for the services and public service sectors. The Services' ever increasing roles for Next Generation ISR assets are permeating across a very broad range of critical missions, including but not limited to: Persistent Global Strike, Counter-intelligence & Counter-terrorism, Maritime Domain Awareness, Space Defense, Anti-Access and contested Global Commons. From Iraq and Afghanistan to the ever increasingly tumultuous Asia-Pacific region, and at home to CONUS, the need for diverse and evolving leap-ahead Next Generation ISR technology is paramount.
