

Sudoku, Experience the Multiplayer War Game

MILAN, ITALY, October 10, 2014

/EINPresswire.com/ -- Brain-e is a group of professionals from the world of digital media led by Luca Gadani. Their goal is to adapt a series of games from the enigmatography, or puzzle solving, genre and make them social. The first gaming title being released for this concept is titled Sudoku Wars. Sudoku Wars is based on the extremely popular version of modern Sudoku which was first published in 1979.

Updating a number of iconic games into modern massively multiplayer social experiences is an exciting proposition. There are many games in the online multiplayer genre but few of these titles offer the pre-existing familiarity of a game of Sudoku. In addition the enhancements made by taking a popular game and turning it into an online social platform create an entirely new experience for gamers. This new wrinkle allows players to participate in games which are tailored to their level of competition. It is one thing to complete a new Sudoku puzzle, it is quite another entirely to come out victorious against the clock and a quality opponent. The latter is a much more satisfying experience. At its core Sudoku Wars acts as a social hub. People all over the world have experience playing Sudoku due its immense popularity, this gives Sudoku Wars access to a global audience of peers. Those who do not even speak the same language can still engage in a game as Sudoku is driven by numbers which are universal.

Sudoku Wars is set to be released with an absolutely [free version](#) for the Android, iOS and tablet. For a small fee, gamers can also take advantage of the premium version of Sudoku Wars. This version will be free of ads and will allow users to access hints and suggestions. Both versions have access to the single player mode and the multiplayer mode. The single player mode is instantly recognizable as

the world famous version of Sudoku. Perfect for casual and relaxing play, single player is enhanced with a diverse number of puzzles and controllable levels of difficulty. Performance measures are captured and released by the Sudoku Analytics system which tracks and compares individual performance. These measures include average times, average errors per game and total number of games played. This offers gamers a chance to beat their own previous best efforts. The multiplayer mode is where Sudoku Wars takes the game to unprecedented heights. Users can now challenge their friends to the same Sudoku puzzle in real time through social platforms linked to the game. The winner is determined by whoever can complete the Sudoku first. Those who pick up these victories are rewarded with points. Those who win in a dominating fashion or who defeat a particularly tough opponent gain even more points. Users receive social rankings, awards and trophies based on their skill level. And, to add to replay value, reaching a high level of success rewards gamers with extra content.

To launch the initial game Sudoku Wars is now part of an [Indiegogo crowdfunding campaign](#) until November 6th. Crowdfunding rewards are as follows:

- \$2 – Place of honor in the website's backer's section
- \$3 – Sudoku War Premium download, limited to 99
- \$4 – Place of honor in the website's backer's section and Sudoku War Premium
- \$6 – Sudoku War Premium and five entries into Sudoku War tournaments and special thanks on the greatest backer's section in the website
- \$9 – Sudoku War Premium download, five entries into Sudoku War tournaments, soundtrack of the game made by the original L.A. band New Vices and the official supporters badge on your profile
- \$20 – A digital book, with a special dedication, about the methods to resolve any Sudoku scheme as well as all of the rewards above
- \$40 – A soft cover pouch and three entries into Sudoku War tournaments, the soundtrack of the game, the digital book and the official supporters badge on your profile
- \$50 – Tee shirt, Sudoku War Premium, three entries into Sudoku War tournaments, special thanks in greatest backer's section of the website, digital book and soundtrack

On their own merits both Sudoku and online gaming are incredibly popular. This is because both are fun and challenging. Combined this combination creates a large community of people who [love the game](#). As discussed in the rewards section, there are even plans for special organized Sudoku tournaments which will put awards and rankings on the line for the best players. Funders can make history as participants in the very first Sudoku Wars tournaments.

About

Sudoku Wars was created by Milan, Italy's Brain-e (www.brain-egames.com/it/sudoku-wars) . Sudoku Wars is the basis for a current Indiegogo crowdfunding campaign. Sudoku Wars brings the world famous game to a global multiplayer community.
