

CSL Offers Custom Coax Cables for RFID Antenna Cables for Variety of Asset Tracking Applications

Specialty RFID antenna cables available by the meter with quick turnaround to complete RFID Reader and Antenna Portfolio

HONG KONG, CHINA, October 13, 2014
/EINPresswire.com/ -- Today, [Convergence Systems Limited](#) (CSL), a global provider of passive RFID products and active RTLS equipment, announced availability of custom RF antenna cables for a wide range of radio frequency identification (RFID) applications.

CSL customers can order custom RFID antenna cable lengths by the meter, from 3 meters to 15 meters. CSL is only supplying high performance, low dB loss quality coax cables. The coax cables are available with various SMA connectors to fit industry-leading CSL RFID fixed readers and antennas.

"CSL's team of experienced RF engineers work closely with customers to design, develop and manufacture custom antennas to meet their specific application needs," said Jerry Garrett, managing director, Convergence Systems Limited. "And because we understand that speed is of the essence, we pride ourselves on a quick turnaround even for custom orders."

“

CSL's team of experienced RF engineers work closely with customers to design, develop and manufacture custom antennas to meet their specific application needs.”

Jerry Garrett

With versatile [antenna options](#) and high-performance [UHF RFID fixed readers](#) delivering high read rates, CSL solutions are ideal for large area continuous scanning, event access control, and inventory management.

In order to help customers complete specialty projects as quickly as possible, custom CSL coax cables ordered at the start of the work week are shipped by the end of the same week. CSL offers the versatility and performance needed for diverse RFID applications, ranging from Retail

and Warehouse Management, to Cold Chain Logistics, Healthcare, Access Control and Asset Tracking.

About Convergence Systems Limited

Founded in 2000, Convergence Systems Limited is a leading design engineering company and provider of radio frequency ID (RFID) tags, readers, antennas, modules and custom RFID hardware. CSL is unique in providing both passive Electronic Product Code™ (EPC) Gen 2 RFID products, as well as a full line of active RTLS RFID products. CSL delivers a broad portfolio of RFID hardware for logistics management, supply chain, manufacturing, pharmaceutical, access control, transportation and retail industries around the world. A member of standards organization EPCglobal, CSL is headquartered in Hong Kong with a global distribution channel. For more information, visit www.CSL-RFID.com.
