

# AlBariq Bring State of Art Technology in Waste Management for Oman

*Muscat City has moved towards underground waste management*

MUSCAT, RUWI, OMAN, October 16, 2014 /EINPresswire.com/ -- Leading Waste Handling & Cleaning Equipment distributors in Oman AlBariq Equipment llc has successfully completed the project installation and operation for Underground Waste Collection System for Muscat Municipality. Speaking on the features of the system the Divisional Manager Mr. Nikson Mathew said that

the new system will keep the environment clean and healthy as the bins will be placed underground. There will be no overflowing garbage bins over ground, no foul smell, no parasites on the surface, and the system is easy to access for differently-abled people and children.”

He further added that the Equipment is sourced from Plastic Omnium Spain (Generally known as PO France) worlds number 1 producer of environment products and the system with its two or four openings (throwing pillar) it is easy to be connected to the underground system. Users will have to open the boxes (throwing pillar) to dump waste.” As for collection of waste at the press of a button, a hydraulic system access fitted on the truck will lift the platform on which the bins are placed for municipality staff to empty them into

“

Managing Waste is an Art by itself
