The Danish Exchange Celebrates 5 months as Crypto Coins Platform With a 1 Million Transaction Achievement Throwing a Party with Happy Hours and Monster Trading!

BLOKHUS, JAMMERBUGT, DENMARK, October 17, 2014 /EINPresswire.com/ --Prior to the cryptocurrency revolution, Ronny Boesing worked as a sales executive and general manager within the music industry for over 25 years. The Internet disrupted his music publishing business but the silver lining was that these events inspired him to continue researching and innovating.

At the beginning of 2014, Ronny Boesing was approached by an international investment group – a member of which was a good friend of his from back in the 90's. The group had long had its eyes on Denmark due to the liberal and open regulatory framework.

Boesing readily embraced this opportunity, creating Crypto Coins Exchange Denmark ApS (CCEDK ApS) on March 20, 2014. Boesing became the founder of the very first cryptocurrency exchange of its kind in Denmark, which went live on May 26 2014.

"I am a pioneer in spirit, and all my life I have made my income getting out there to the rest of the world, in places and

countries no one else thought profitable, trying to sell a product. The product might be different each time; the whole world, however, is still my little playground"- Boesing says.

Choosing not to focus on Bitcoin alone, CEO Ronny Boesing researched other cryptocurrencies,

selecting NXT and a handful of others to trade on his platform. In addition to the recently added Blackcoin and Nubits, Boesing has managed to add Darkcoin, Dogecoin, Bitmark, FimKrypto, Bitmark and BitsharesX to make it a total of 12 crypto currencies and the crazy amount of 100+ trading pairs. Boesing plans to keep adding other promising coins, which he gauges by the level of community support, to CCEDK by the end of this year.

CCEDK is the first Danish online exchange for digital currencies such as Bitcoin as well as for altcoins including Peercoin and Litecoin and second generation crytpocurrencies such as NXT and Blackcoin.

Darkcoin Gains Wider European Exposure, Now Trading at Danish Exchange CCEDK

CCEDK takes their customers' security to heart, and therefore reserves 30% of crypto currency revenue in a reserve fund used to repay traders if they are the victims of fraud or cybercrime. A very bold but strategic move by the Danish digital currency exchange.

You may have noticed the kangaroo in the CCEDK logo, which also has a deeper meaning. A kangaroo takes big jumps, and so does CCEDK in terms of development and moving forward progressively. The kangaroo's pouch, which acts as a safe haven for their young, represents the security of users' wallets at the CCEDK exchange. Small things like these make traders feel more secure, and ensures of sense of trust between all parties.

Once again a big WELCOME from CCEDK - Let the Trading begin!
