Alan Calder, founder and executive chairman of IT Governance, says, "I am delighted that GOAL Group of Companies has been awarded the ISO27001 certificate. The project team should be proud of their achievement, and I am confident that implementing ISO27001 has helped the company improve information security as well as bringing other business benefits, including gaining competitive advantage and meeting compliance requirements."

David Gilbert, Global Business Development Manager for the GOAL Group of Companies, said, "On behalf of myself and colleagues sincere thanks to the IT Governance team for their input helping us achieve certification to the ISO27001 standard. Here we are, just six months after we started the project and the outcome has been described by the auditor as 'a delight to audit'.
