

Quickswap, Got Wheels?

DENVER, CO, UNITED STATES, October 23, 2014 /EINPresswire.com/ -- Zach Conrad, the CEO of ZCD Product Design Studio announces a [Kickstarter Crowdfunding campaign](#) for a timesaving super-wheel for skateboards and skates. Instead of having to fumble around with inconvenient wrenches, ill-fitting screwdrivers and cumbersome replacement wheels, Zach device has a basic hub onto which a new “tire” can be quickly snapped into place and safely locked on with a twist. It can even have an added locking device which will not only make the wheel more secure, but will prevent between-use tampering.

Not only does Zach have some great wheels for people who love to use their skates or skateboards for fun and for transportation, he is even willing to help others develop their great ideas. Just check out the Crowdfunding Special toward the bottom of the [incentives list](#).

And about those incentives, they do have a little bit of an unusual twist – they almost read like a catalog listing. Listed are several small rewards, that are incomplete by themselves. There are four main packages – the Skateboard System, the Longboard System, the Roller Derby Blocker and the Roller Derby Jammer. They contain the needed parts to make the other incentive packages work – unless, of course, you contribute \$1.00 - \$9.00, which will get you big thanks for your support.

Here’s the list of reward incentives:

\$1.00 -- minimum possible pledge, every little bit helps.

\$5.00 -- Thanks for the support, and

updates on progress

\$25.00 – Quickswap t-shirt to show your support, and updates. (Add \$10.00 for shipping outside the US.)

\$65.00 – 1 skateboard wheel system, w/55mm, 99A white AND 1 set 59mm, 95A grey tires. Add a \$10.00 level donation to get the tamper-proof Quickswap key. Tamper resistant bearings not included.(Add \$20.00 for shipping outside the US.)

\$100 – 1 longboard wheel system, 77mm 81A yellow wheels, AND 1 set 90mm 78A green tires. One set of hubs – eight tires. (Add \$20.00 for shipping outside the US.)

\$135 – Roller derby Jammer System: 1 wheel system with one set 59mm, 95A Purple Tires and one set 59mm, 95A blue tires. .(Add \$20.00 for shipping outside the US.) See \$10 incentive for tamper resistance.

\$140 Roller Derby System #3- PIVOT: 1 wheel system with 62 mm x 39 mm 95A BLACK tires and extra set of 93A tires. Includes 4 hubs and 16 tires BLACK. Add 10\$ incentive to get the TAMPER RESISTANT HUBS. BEARINGS NOT INCLUDED.

\$145 -- Roller Derby blocker system: 1 wheel system with 1 set 62mm, 93A purple tires and 1 set 62mm, 95A blue tires. (Add \$20.00 for shipping outside the US.)

\$300 – Crowdfunding package. Zach Conrad (a top designer in his field) will talk with you about YOUR next big design. He'll consult and help you design your plans.

\$400 – Skate is Life reward: You'll receive a hoodie and sticker, and be able to design your personalized reward out of the previously offered incentives.

As you can see from the rewards line up, Zach really does have a very different approach to things – unusual, but good. The wheels are designed for ease and convenience, but [still focus on safety](#). The snap and lock system is easy to handle, and the design of the various wheels themselves is intended to keep you safe while having optimum performance.

Zach takes just as much care with designing a Kickstarter campaign, and he genuinely enjoys helping people get going with great ideas, and he has lots of experience with designs for fitness and medical equipment. He isn't joking around when he offers his help to others who have ideas that could be developed into the next great invention. It is his personal passion.

About: Zach Conrad, CEO and founder of ZCD Product Design Studio, has participated in cycling teams in both the US and Europe. Zach has experience with developing fitness and medical equipment for many needs. The Quickswap concept (www.quickswapwheels.com) is was originally put forth by Brain Krell, a Roller Derby referee. Zach picked up the ball and developed the system, starting it rolling – so to speak
