

Combined Resources Provides Document Shredding in Chicago And Has Taken the Recycling At Work Pledge

As a company that offers recycling services in Chicago, Combined Resources has joined other businesses by taking the Recycling at Work pledge.

ADDISON, IL, USA, October 24, 2014 /EINPresswire.com/
-- In honor of America Recycles Day on November 15, [Combined Resources](#) is showing its support for recycling in the workplace by taking the [Recycling at Work pledge](#).

Recycling at Work is a nationwide initiative encouraging businesses, schools, non-profits, hospitals, government agencies, and more to increase workplace recycling by ten percent. When businesses take the pledge and become a Pledge Partner, they gain access to discounts on recycling bins, tools, other resources designed to encourage employee participation. Recycling at Work is led by Keep America Beautiful in partnership with the Alcoa Foundation as part of their Clinton Global Initiative Commitment.

"As one of Chicago's recycling centers, we are extremely passionate about recycling as much as possible in the workplace. We love the fact that more and more businesses are taking the Recycling at Work pledge. When the nation comes together to recycle, we believe it can really reduce our carbon footprint. We hope that we have the opportunity to help some of these businesses achieve their recycling goals through our recycling services in Chicago," states [Thomas Woznicki](#), Vice President of Combined Resources (<http://www.combinedresources.us>).

America Recycles Day is also an initiative of Keep America Beautiful. There is no other nationally recognized day dedicated to encouraging recycling in America. Every year, countless individuals and businesses alike take part in ARD on or around November 15th, raising awareness about recycling and encouraging people to be more environmentally conscious.

Combined Resources also encourages businesses to reduce their carbon footprint by effectively managing waste. They urge businesses to strive for a waste goal of zero percent landfill. Their recycling services include paper recycling, plastic recycling, metal recycling, and document shredding in Chicago. Combined Resources also offers recycling services, strategies, and solutions to help businesses effectively manage e-waste as well.

"Our goal is clear: to help businesses minimize their waste output and maximize their profit. What makes us different from other recycling companies is that we offer customized strategies and solutions for each of our clients in order to help them optimize return on investment. Companies will be amazed at the amount of money and environment they can save by being intentional about recycling in the workplace," states Woznicki.
